**Fabian Kremkus** has worked nationally and internationally on academic and research facilities, secondary schools, hospitals, and corporate headquarters, sports, and entertainment facilities during his nearly 30-year architectural career. Since joining the firm in 1999, Fabian has served as the designer for major museum, performing arts, research, healthcare, higher education and justice facilities in Southern California and throughout the country. His enthusiastic devotion to the profession of architecture and craft of building is unsurpassed, and his approach to each project merges design sensitivity with great attention to detail and craft. Fabian holds both a Master of Architecture and a Pre-diploma of Architecture from the University of Braunschweig, Germany.
